

Double Feeder

AF 120-145-165

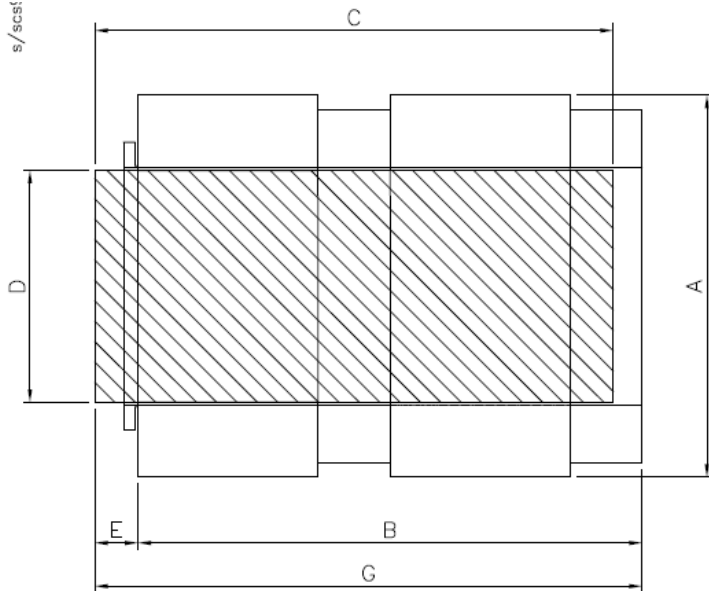

- Versatility added to your folder gluer with liner (like soap powder), Tray Boxes straight line or crash lock and Partitions boxes.
- Two upper and lower vacuum feeders (Pneumatic Time Feeder P.T.F.).
- 2 Hot melt spray guns from Nordson for two pieces box gluing.
- PLC controlled for optimizing folder gluer speed synchronization. Laminating precision granted ± 1 mm.
- It can be connected to any kind of folder gluer being VEGA or other brands.
- Independently motorized for avoiding set-up time waste, it can be connected to the folder gluer after AF set-up.
- On 4 wheels for easy placement.

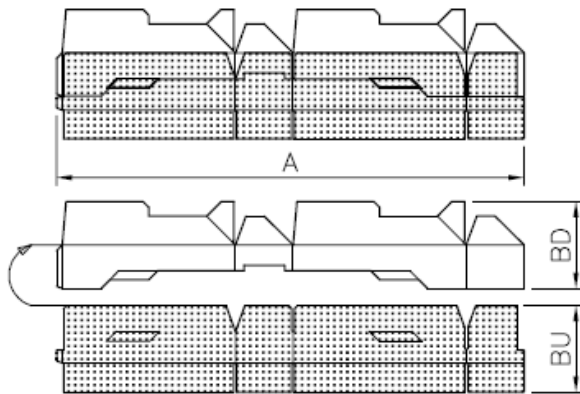

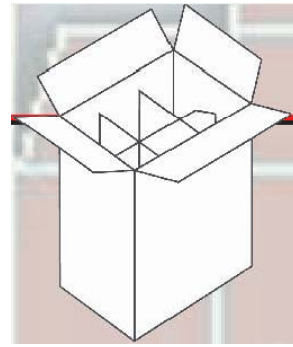

Boxes Layout:

Die-Cut Blank laminator for solid board from $g/m^2=250\div 800$
