

ALL YOU NEED

Sound proof cabin for 2.8m Modul Facer, Convert Paper, Gostyn, Poland

- ❑ Unmatched protection from the noise, through special material utilised and larger wall thickness compared to market standard
- ❑ Evacuation of excessive heat and moisture, as well as correct flow of air: both fundamental for good quality of the 2ply web and of the corrugated board
- ❑ Excellent visualisation inside the cabin via smart-positioned, large size windows
- ❑ Easy and quick access to the machine inside the cabin, whenever needed
- ❑ Installation of the machine's touch screen and command buttons directly on the sound proof enclosure
- ❑ Very attractive aesthetics, Italian design!
